

Classic Air Winch Series
1000 and 2000 lb (454 and 909 kg) capacity

Serving the construction and maintenance industries for more than fifty years, these time-tested IR air winches have become the industry standard. Economically priced, these proven performers offer exceptional quality and value. All IR Classic air winches meet ANSI / ASME B30.7

■ **Standard features:**

1. Enclosed construction keeps out dirt and dust and seals in oil and grease for complete lubrication of all moving parts
2. Ball and roller bearings = reduced friction
3. Reliable band type brake securely holds rated load
4. Disengaging clutch allows free wheeling of rope drum for hand unwinding; standard on most models
5. Powerful radial piston air motor for positive starting with precise control
6. Self-closing throttle shuts off automatically when released, providing well-graduated control for spotting loads
7. Reversible motor allows full control of load by throttle when lifting, lowering and pulling
8. Throttle valve is designed to eliminate air leakage when the winch is idle

■ **Options:**

- Automatic band brake
- Remote control
- Tensioning manifold
- Sandblast and carbozinc primer
- Construction cages
- Remote pendant control
- Marine 812 finish

Specifications: performance is based on 90 psi (6.3 bar) air inlet pressure with motor running

How to Order:

Specify the air winch series desired from the charts in the Air Winch Selection Guide. Remote control and/or auto brake options are available for most air winches. Add correct suffix to winch series if either or both are desired. Specify control hose length "XX" in feet. e.g. BU7APTAB15 is a BU7APTAB with 15 feet (4.6 m) of control hose.

Model	Remote control	Automatic Brake	-	Options
EU	RC	AB	-	PZ
BU7A	PT = Pendent throttle	AB = Automatic brake	-	E = Construction cage
EU	RC = Remote control (full flow)			P = Marine 812 finish
EUL	XX = Specify control hose length in feet			Q = Special paint; please specify
				R = Natural gas operation
				Z = Sandblast and carbozinc primer

Notes:

Rope drum disengaging clutch is standard equipment on these winches.
 Automatic brake is standard equipment on BU7APTAB and EUAB/PT.
 Automatic brake and disengaging clutch may not be used together.

Caution: These winches are not to be used for lifting or lowering people.
